Product Overview

IBC Delaware LLC offers high-grade collapsible aluminum tubes designed specifically for pharmaceutical, cosmetic, technical adhesive, and food packaging applications. Produced using seamless cold-impact extrusion from 99.5% pure aluminum, these eco-friendly, 100% recyclable tubes guarantee maximum air-tight barrier protection, preventing contamination and preserving product freshness.

Material Grade
Pure Aluminum (Min. 99.5% purity) compliant with international packaging regulations.

Custom Coatings
Internal protective lacquer coating (epoxy phenolic) & base enamel outer coat.

Printing Capabilities
High-precision multi-color offset printing (up to 6 colors) with custom gloss or matte finishes.

Nozzle & Cap Options
Membrane opening, open nozzle, extended tip, with compatible screw caps (PE/PP).

Dimensional Specifications

DIAMETER (MM)	THREAD TYPE	MIN LENGTH (MM)	MAX LENGTH (MM)	COMPATIBLE CAPS
Ø 16	M9	80	113	513
Ø 19	M9	80	135	513, 190
Ø 22	M9	80	145	513, 190, 220
Ø 22	M11	80	145	718
Ø 25	M9	110	165	513, 190, 220
Ø 25	M11	110	165	718, 507
Ø 28	M9	110	170	513, 190, 220
Ø 28	M11	110	170	718, 507, 508
Ø 30	M9	125	180	513, 190, 220
